

FISCAL NOTE

HB 215 - SB 802

April 1, 2005

SUMMARY OF BILL: Increases the minimum length of issuance for a certificate for driving (CFD) from one to three years.

ESTIMATED FISCAL IMPACT:

Decrease State Revenues – Exceeds \$400,000
Decrease State Expenditures – Exceeds \$60,000
Increase State Expenditures - \$15,000 One-Time

Assumptions:

- Currently the minimum length of issuance for a CFD is one year. Under certain circumstances a CFD may be issued for a period of no longer than five years. Very few CFD's are issued for a period of longer than one year.
- The Department of Safety estimates that, under current law, approximately 24,000 CFD's will be issued on an annual basis with most being issued for a period of one year.
- There will be a decrease in state revenues from collecting the CFD renewal fee on the minimum length of issuance on a triennial basis rather than an annual basis.
- There will be a decrease in state expenditures from issuing the CFD renewal on a triennial basis rather than an annual basis.
- A one-time increase in state expenditures for computer system changes.

CERTIFICATION:

This is to duly certify that the information contained herein is true and correct to the best of my knowledge.
